Dear Ed:

**Informative, motivating, entertaining, do-able!!!** The recent Leadership Academy you and Vito presented on January 7-8th, was simply fantastic. I found the two day affair filled with professional wisdom, vision inspiring, and charged with "substance" and hope for current and future leaders in our schools. You know, sometimes all of us just need to be replenished in our perceptions of what really matters in our daily decision making, problem solving activities.

Ed, when I went home that night, I headed right for the bookstore to purchase the two books on leadership ( The 21 Irrefutable Laws of Leadership and Changing Leadership for Changing Times) that were discussed at the workshop. They are great resources. Finally, I just wanted to say thank you for your excellent presentation. Oh, yes... never abandon that one-of-a-kind, captivating voice.

Until our paths cross again, take care.

Most sincerely yours,

Dr. Kenneth M. Malia
